HUMPHREY Manlift ELEVATOR

★ ***Eliminates Stair Climbing***
★ ***Saves Time—Reduces Fatigue***
★ ***Safe—Economical—Dependable***

The Humphrey Elevator transports personnel simultaneously up and down—eliminates all stair climbing—provides quick access to any floor for servicing machinery. Riders just step on and off—control rope instantly starts and stops the endless belt—no waiting or lost time!

Can be installed in new or old multi-floor buildings. Initial cost, installation and operating costs are much lower than conventional elevators. Widely used in garages, flour mills, grain elevators, paper mills and all types of industrial mills and factories.

Write us stating your requirements and we will furnish full information, blue prints, prices.

the NORTHWESTERN MILLER®

MICROFILM EDITIONS AVAILABLE

THE MILLER is available in microfilm form for libraries and companies with microfilm facilities. A complete set of issues for the years 1950 through 1960 can be secured and subsequent volumes will be issued annually.

All types of libraries, faced with a space problem caused by the constant flood of publications, are substituting microfilm editions for their paper copies after they have passed their period of maximum use.

The microfilm is in the form of positive 35 mm., on suitably labeled plastic reels, each covering an entire volume. The labeled reels are packed in kraftboard cartons ready for storage on library shelves or for use in a microfilm viewer.

Orders should be addressed to University Microfilms, Inc., 313 N. First Street, Ann Arbor, Mich.
